

Czech Atherosclerosis Group – History

Czech Atherosclerosis Group (CAG) had been found in 1979 as a part of the Czech Society for Pathological and Clinical Physiology, working under the umbrella of the Czech Medical Association, which includes more than hundred scientific societies. Czech Medical Association continues, in activity of the Union of Czech Physicians, founded in 1862 from initiative of well known Czech physiologist J. E. Purkyne (in English literature: Purkinje), who was its first President. Czech Medical Association (present title established in 1979) enables close cooperation of individual Societies, which organize several hundreds of scientific events a year. Czech Medical Association is also an official partner for the Czech Government and related institutions.

Czech Atherosclerosis Group organized up today 60 scientific meetings, 30 of them in cooperation with other Societies. Beginning 1996, Symposium with international participation and educational program is organized yearly in cooperation with several Societies of the Czech Medical Association, Institute of Postgraduate Studies in Health Care in Prague and National Center for Nursing and other Health Professions in Brno. Educational program covers whole problematic of atherosclerosis, plenary lectures are presented by invited speakers from the Czech Republic as well as from abroad. Program is included into continuous education of physicians and other health professionals. In 2014, jubilee 60th Symposium will be held in Prague, September 15-17.

CZECH ATHEROSCLEROSIS GROUP – SCIENTIFIC MEETINGS 1979- 2014

1. Prague, October 15, 1979: Liver and lipoprotein metabolism
2. Prague, December 9, 1980: HDL lipoproteins and atherosclerosis
3. Prague, February 24, 1981: Biochemical diagnosis of hyperlipidemias
4. Prague, April 28, 1981: Atherosclerosis and lipids
5. Prague, June 16, 1981: Peripheral arterial occlusive disease
6. Hradec Králové, October 20, 1982: Medicamentous treatment of hyperlipidemias
7. Prague, February 3, 1982: Nutrition and Atherosclerosis
8. Prague, March 30, 1982: Atherosclerosis and diabetes
9. Hradec Králové, November 24, 1982: Relevancy of qualitative changes in lipid profile
10. Prague, March 1, 1983: Hyperlipoproteinemia and family and genetic influences
11. Železná Ruda, May 25-27, 1983: Application of biochemistry in medical and biological sciences
12. Hradec Králové, June 1, 1983: Metabolism of the vein wall and atherosclerosis
13. Prague, October 4, 1983: Risk factors of atherosclerosis and their prevention
14. Hradec Králové, November 23, 1983: Hemocoagulation and atherosclerosis
15. Plzeň, April 26, 1984: Lipids and Apolipoproteins as risk factors of atherosclerosis
16. Písek, July 3, 1984: Rehabilitation for myocardial infarction
17. Hradec Králové, November 28, 1984: Lipids in acute stages

18. Brno, March 18, 1985: Clinical and biochemical problematic of the extra-cranially caused brain atherosclerosis
19. Prague, May 28, 1985: Effect of diet on risk factors of atherosclerosis
20. Zelezna Ruda, June 5-7, 1985: Biochemical and clinical problematic of lipids
21. Hradec Kralove, November 13, 1985: Clinical and biochemical problems of lipid metabolism in childhood and adolescence
22. Prague, April 1, 1986: Is hypertriglyceridemia a risk factor of atherosclerosis?
23. Prague, June 3, 1986: Fish diet and risk factors of cardiovascular diseases
24. Prague, November 25, 1986: Lipids in postoperative care and after a long time therapy
25. Prague, February 25, 1987: Present analytical possibilities and problems of lipoproteins, lipids and enzymes of the lipid metabolism
26. Plzen, April 1, 1987: Metabolic risk factors of ischemic heart disease
27. Zelezna Ruda, May 16-17, 1987: Biochemical and clinical problematic of lipids
28. Hradec Kralove, November 3, 1987: Changes of the LDL fraction in diagnostic and therapeutic practice
29. Manetin, June 16-17, 1988: Pathogenetic aspects of atherosclerosis
30. Plzen, June 7, 1989: Progress in the atherosclerosis research
31. Prague, June 21, 1989: Lipoproteins and atherosclerosis
32. Zelezna Ruda, June 7-9, 1990: Biochemical and clinical problematic of lipids
33. Plzen, June 27, 1991: Pathophysiological aspects of atherosclerosis I
34. Hradec Kralove, April 2, 1992: Pathophysiological aspects of atherosclerosis II
35. Plzen, September 22, 1992: Lipids and atherosclerosis
36. Prague, March 31, 1994: Pathophysiological aspects of atherosclerosis III
37. Zelezna Ruda, June 16-18, 1994: Some new aspects of lipid metabolism
38. Olomouc, September 20, 1995: Pathophysiological aspects of atherosclerosis IV
39. Prague, September 26, 1995: Infants of diabetic mothers
40. Prague, June 25, 1996: Plasma non-cholesterol sterols
41. Ceska Trebova, June 26-30, 1996: Atherosclerosis – diagnostics, treatment, prevention (Symposium with educational program)
42. Prague, September 16, 1996: Genetic and environmental sources of plasma lipids, lipoproteins and apolipoproteins variation and covariation
43. Ceska Trebova, July 2-6, 1997: Atherosclerosis – diagnostics, treatment, prevention (Symposium with educational program)
44. Ceska Trebova, July 1-5, 1998: Atherosclerosis – diagnostics, treatment, prevention (Symposium with educational program)
45. Ceska Trebova, June 30-July 3, 1999: Atherosclerosis – diagnostics, treatment, prevention (Symposium with educational program)
46. Ceska Trebova, March 15-18, 2000: Atherosclerosis – diagnostics, treatment, prevention (Symposium with educational program)
47. Ceska Trebova, February 7-10, 2001: Atherosclerosis – diagnostics, treatment, prevention (Symposium with educational program)
48. Prague, September 11-13, 2002: Atherosclerosis-Hyperhomocysteinemia 2002 (Symposium with educational program)
49. Prague, September 10-12, 2003: Atherosclerosis-Hyperhomocysteinemia 2003 (Symposium with educational program)

50. Prague, September 15-17, 2004: Atherosclerosis-Hyperhomocysteinemia 2004 (Symposium with educational program)
51. Prague, September 14-16, 2005: Atherosclerosis 2005 – diagnostics, treatment, prevention in childhood and adult age (Symposium with educational program)
52. Prague, September 11-13, 2006: Atherosclerosis 2006 – diagnostics, treatment, prevention in childhood and adult age (Symposium with educational program)
53. Prague, September 12-14, 2007: Atherosclerosis 2007– diagnostics, treatment, prevention in childhood and adult age (Symposium with educational program)
54. Prague, September 10-12, 2008: Atherosclerosis 2008 – diagnostics, treatment, prevention in childhood and adult age (Symposium with educational program)
55. Prague, September 9-11, 2009: Atherosclerosis 2009 – diagnostics, treatment, prevention in childhood and adult age (Symposium with educational program)
56. Prague, September 8-10, 2010: Atherosclerosis 2010 – diagnostics, treatment, prevention in childhood and adult age (Symposium with educational program)
57. Prague, September 7-9, 2011: Atherosclerosis 2011 – diagnostics, treatment, prevention in childhood and adult age (Symposium with educational program)
58. Prague, September 12-14, 2012: Atherosclerosis 2012 – diagnostics, treatment, prevention in childhood and adult age (Symposium with educational program)
59. Prague, September 11-13, 2013: Atherosclerosis 2013 – diagnostics, treatment, prevention in childhood and adult age (Symposium with educational program)
60. Prague, September 10-12, 2014: Atherosclerosis 2014 – diagnostics, treatment, prevention in childhood and adult age (Symposium with educational program)
- 61.
